THE CHARLEROI MAIL

Entered second class mail at Charleroi, June 15, 1900, according to Act of Congress of March 8, 1879

VOL. XI. NO. 18. CHARLEROI, WASHINGTON CO., PA., TUESDAY, AUGUST 30, 1910. One Cent

NEW LINES TO GIVE THREE RAILROADS ACCESS INTO UNDEVELOPED TERRITORY

MORGANTOWN GRAND TERMINAL OF ALL ROUTES TO EAST AND WEST

P. and L. E. to Construct Connecting Tracks from Fayette County to Point in West Virginia

With the construction shortly of a contemplated connecting line from their present terminal in Fayette county to Morgantown by the P. and L. E. railroad, the construction of an entirely new railroad in West Virginia, and improvements to be made and new tracks to be laid by both the Pennsylvania and Baltimore and Ohio railroads, an outlet is promised for the three large corporations shortly in north, south, east and west, with Morgantown, as the center. Before these plans can be accomplished traffic arrangements have to be perfected, but it is understood with the advantages to be gained by all roads by such agreements there would be no delay.

It has long been known that the P. and L. E. contemplated continning their tracks to Morgantown. From Kingwood, W. Va., to the same terminal, a railroad to be eventually taken over by the Little Kanawha syndicate, and known as the Coal and Coke railroad, is to be constructed. At Dunkard, Greene county, Pennsylvania, a bridge is to be built by the Pennsylvania railroad company which is to lead their tracks to that point and across the Monongahela river. Near this point by the traffic arrangements the Pennsylvania will have access over the P. and L. E. tracks to Morgantown. The Baltimore and Ohio railroad comes in from the east to Morgantown, and thence has lines to Cincinnati. These the P. and L. E. and the Pennsylvania are to be allowed to use for traffic to the west, in return with connection along the Monongahela river to Pittsburg.

The bridge to be placed at Dunkard is the one that is at present being dismantled at Beaver. All three railroads, which combined to shut out the Wabash from Greene county some years ago by purchasing all their proposed routes, have had an eye on the rich West Virginia undeveloped coal fields for some time, and it is mainly for access to these that the long drawn out palns have been formulated. Through the new arrangemen tCharleston, will be connected by a through line to Morgantown, W. Va., and in a more direct way with Pittsburg.

Won't Leave Enough for Grease Spot

Nearly Entire Population Coming from Monongahela

"There won't be enough people left in Monongahela Saturday night to make a grease spot," said Alderman "Dick" Ellwood yesterday in speaking of the Tener rally to take place in Charleroi on that day. The Monongahela people, not less jubilant than Charleroi over the opening of the campaign in Congressman Tener's home town, plans to send a large delegation, including their famous uniformed Ku Klux Klan, who will have about 300 of the phantoms in line.

BENEFIT OUTING TO BE HELD FOR LOCAL HOSPITAL

Pragram of Sports Arranged for Affair at Eldora Wednesday

For the benefit outing to be held for the Monessen-Charleroi hospital at Eldora Park Wednesday a program of sports has been arranged, consisting of races and contests of a various nature. A baby contest will be held, and a prize will be awarded for the prettiest and the fattest baby. The prorgam of sports follows:

100-yard dash for men.

50 yard dash for boys under 16 years

50-yard dash for girls under 16 years.

50-yard dash for men running backwards.

Potato race.

Sack race.

Egg and spoon race for ladies.

50-yard dash for ladies.

A charity ball will be held in the afternoon and evening, when there will be dancing on the pavillion.

GOVERNMENT IS NOW IN POSSESSION

Money is Paid Over for Public Building Site

DEEDS PLACED ON RECORD

The United States government is now in full possession of the ground at the corner of Fallowfield avenue and Seventh street purchased for the Federal building site. All money has been paid to the former owners and the deeds recorded of the purchase. The money was paid over on Saturday by Assistant United States District Attorney H. S. Lydick, of Pittsburg, the total purchase price being $20,775. This sum was divided as folows among the three holders of the property: Simon Delchevalire $3,725; Mrs. Florentine Malicord, $3,700; Mrs. Mary Didat $3,350. The deeds were recorded some time ago, after the Government agents had thoroughly investigated the titles.

There are three houses on as many lots of the property. These are to be removed by the owners upon 60 days notice from the Government.

SCHOOL ATTENDANCE BETTER THAN AT START LAST YEAR

Nearly 1,800 Pupils Report at Second Day's Session and New Record is Made for Charleroi

APPROVED COURSE OF STUDY THROUGHOUT

The Charleroi schools started off Saturday with the highest enrollment in its history, and with more comiing in this morning, it looks as though the first school month would witness the usual crowded condition of mid term. Yestreday the total enrollment was 1,715, and this morning there were about 40 more who came in at the buildings, bringing up the enrollment the second day to 1,755. Last years' enrollment on the first day did not quite total 1,700 pupils, and on September 16 had only passed the 1,800 mark.

In the eighth grade is a very noticeable increase in the number of pupils, there being about 80 present there, in comparison to the 48 or less in previous years.

In the grades there new readers have been installed, and the classes in high school now reach the full requirements of the State course of study. This high school course is not only calculated for college entrance but also for a practical education, and consists of Latin up to Virgil, one year of German, two years of ancient rhetory, one year of United States history, one year of English and composition, one year of composition and hietoric, one year of study of authors, three years of science, two years of algebra, and one year of plane geometry.

Superintendent James G. Pentz states that children who will be six years old on or before panuary 1 may be enrollied in school the first two weeks of the present term, but not after that. All persons between the ages of 14 and 16 years who hold employment certificatees, but who are not working, will be compelled to attend school. On this matter Superintendent Pentz has received advice from State Factory Inspcetor J. G. Delaney, and those who hold certificates must either go to school or go to work.

DONORA TO HOLD MEET LABOR DAY

Many Good Athletic Events Planned At Neighbor Town

ENTRIES BEING RECEIVED

The committee in charge of the third annual track and field meet to be held at Steel Works Park, Donora, Pa, on Labor Day, are leaving nothing undone to make this affair the best that has ever taken place in the Monongahela Valley. The meet will be held under the sanction of the Amateur Athletic Union and has attracted a large number of entries. Following are the events:

100-yard dash, open; 440-yard dash, open; 5-mile handicap; 220 yard dash, open; 880-yard dash, open; 150-yard handicap, open; 4-5 mile relay cup race, 4 men teams, open only to teams of the Mononaghela Valley; pole vault, open; high jump, open.

Gold, silver and bronze medals are offered for first, second and third, respectively, in all events except the relay race, for which a cup is given the winning team, which cup is to be contested for annually until won three times, and 5-mile race, for which a silver cup will be given the winner; also five other prizes.

WANTED—Girl for general housework. Call at 11 Mail office. 18t1

Business Men Expected To Ride Horses

Arrangements Made at Meeting for Participation in Parade

Members of the Charleroi Business Men's Association are expected to turn out on horseback Saturday evening to participate in the parade in opening the Republican State campaign. A special meeting was held last night of the association to take the place of the regular meeting which would have been held Thursday evening, and a special committee was appointed to see business men of the town in regard to their participation in the parade. This committee consists of J. B. Schafer, William Kirk, L. Collins, N Greenberg, C. J. Mathews and President John H. Bowers.

Simington

Neal Hartley Simington, the 5-months old son of Mr. and Mrs. Jesse Simington, of Crest avenue and Seventh street, died this morning at 7 o'clock. The funeral will be held from the home on Wednesday afternoon at 2 o'clock and interment will be in the Charleroi cemetery. Monessen and Waynesburg papers are requested to copy.

Resolved

That you will go and see the line of Post Cards for 1c at Might's Book store. 18t2

THE NEW SYSTEM

The system of Bookkeeping and Office Practice which the Douglas College has just introduced is a radical departure from old methods.

One reason why the ordinary boy or girl gets tired of his school life is because there is no variety. The students never do anything for themselves, but think they are doing pretty well if they follow instructions.

So much depends upon memorizing rules.

The Bliss System of Actual Business from the Start, the one now to be used in the Business College—is a Learning by Doing system. It develops judgment, common sense, and initiative, because every transaction, such as buying and selling, making deposits in the bank, paying bills, giving out receipts, etc., is performed with one of the seven business offices.

It is a real transaction; that is why it is so interesting. It inculates the idea of doing things well, because there is promotion ahead. Can you think of anything that would be a stronger incentive to develop good work than this same idea of promotion?

In the Office Practice department is where the student learns real Bookkeeping as it is applied to different lines of business. It is here that he assumes responsibility? It is in one of the offices, as Manager or President, that he begins to feel the responsibilities of the business man.

But why try to describe a thing that is beyond description. To understand it, you must personally examine the course. This you are invited to do any day that you can call at the College.

Douglas Business College,
Charleroi, Pa.

DONORA TO SEND BIG DELEGATION AND THREE BANDS

Down River Town Enthusiastic Over Rally Here Saturday

Donora expects to send a delegation of at least 1,500 persons to Charleroi Saturday for the opening of the State campaign, and this number will bring along three bands. A meeting was held at that place last night, and arrangements made for attending the rally. Great enthusiasm was shown.

The Donora delegation will, like the Monessen division, come arrayed in badges, uniformed. They will have banners and expect to create somewhat of an impression. The mills will close down at 3 o'clock in order that the employes may take advantage of the opportunity to come to Charleroi and join with other enthusiasts in supporting the home candidate for Governor.

GOOD TEACHING CORPS ENGAGED FOR THE SEASON

Charleroi has as good or a better teaching force this year than ever. There are ten new teachers out of the 47 instructors, two of these principals. The names of the teachers follow, the new ones being indicated by a star, and the names of the principals appearing first in the list for each building:

Fifth street building—Misses Grace Zillafro, Bernette McDonough, Elizabeth Elliott, Nelle Steele, Bertha Oller, Florence Crill, *Vida Goehring, *Grace Noble, *Mrs. Clara Zimmerman, *Miss Anna Davidson, Miss Ida Hugg.

Ninth street building Misses *Beatrice Chapman, Edith Woodhall, Mary Lewis, Edith Baldwin, Harriet Wagner, Nelle Scott, Harriet Jolliffe, Mary McGee, Mary Blankenbuehler, *Florence Montgomery, Clara G. Cooper, Mina Houseman.

Second street building—Misses Etta M. Work, Judith Collins, *Ruth Shutt, Ella Greenwood, Fannie Arrison Della Swan, Elizabeth Wyatt, Jean Hawthorne, Mrs. Dolly Jeffries.

Crest avenue building—Misses *Nelle Lee, *Grace Sloan, Ina Kline, Nell Hopkins, Winifred Martin, *Ruth Middleton, Daisy Porch, Nora Swan, Mary Thompson, Mary Kelly.

High School—*D. C. Williard, *W. A. Swick, Miss Mary Walters.

AUTOISTS MUST BLOW HORNS AT CORNERS

Team Reorganizes For Next Year

Washington Avenues Close Year With Good Balance In Treasury

At a meeting of the Washington Avenue Presbyterian baseball team last night a report was made showing a balance in the treasury of nearly $50. Reorganization was effected for the coming year by electing Dr. J. W. Manon, president, and Paul Rylands secretary. Bert Mitchell was re-eleteed manager, and Ed. James was elceted captain for next year's team.

TWO FILTER TUBS READY FOR USE

Two of the filter tubs of the new filtration plant being installed by the Phil and Miller company for the Charleroi Water company are finished and could be used for the purpose of filtering water at the present time. There are four more to be completed. In the pumping station the high pressure engine has been installed and is ready for use. The wall on the street side and the wall on the railroad side, of the sedimentation bain are both finished. The contracting company expects to have the plant finished by September 15.

Coming Back

Everybody that has bought any of the 1c Post Cards at Might's Book store. 18t2

Supervisor of music—Prof. I. T. Daniel.

Superintendent of schools—Prof. J. G. Pentz.

Many Drivers Present at Special Council Session

WHERE STREET CARS STOP

Effort to Be Made to Lessen Number of Serious Accidents.

A number of automobiles and street car men were present at the meeting of council last night upon invitation of that body to be instructed on points of the law regarding the driving of automobiles and running of street cars in the borough. Sections of the law were read, and council asked that the auto drivers in turning corners turn them in such a way as to prevent accidents, and to blow their horns at corners. The street car men were asked to stop cars on the approach to a crossing and not after the crossing is passed, and at the crossings where they do not stop to slow up and ring their bells. Ex-Burgess J. J. Hott stated that the automobilists were contemplating forming an automoile association, and that this body would be govrerned by regulations strictly in accoradnce with the law.

Notice

A Meeting of the Boys Brigade will be held this evening at 7:30 n the Business Men's Association rooms.

Capt. R. Dale Jolliffe.

Sun's declination, 9 degrees north of celestial equator.

Taft or Acheson?

Concerning the opposition of the Washington Observer, the organ of Former Congressman E. F. Acheson, to Republicanism in Washington county, the Record says:

Will Ernest F. Acheson, ex-member of Congress, where he sat for years as a high tariff Republican, take issue with President Taft when he says to Congressman W. B. McKinley, chairman of the Republican campaign committee—

"The question for decision will be in (November) whether we shall have in the House of Representatives a Republican or a Democratic Majority?"

When Acheson assumes the leadership in this county for a Democratic renegade, running on an "independent" ticket with the avowed purpose of electing Democratic Congressmen in Pennsylvania, does he frankly, openly, and honestly dare repudiate and deny this statement from President Taft?

What do the wool growers in the Western part of the county think of the Observer's attitude? The Observer has been industriously knocking the tariff on wool, yet the growers of the county sent a delegation to the national capital to protest against any reduction in the duty. Their protests were heeded, and the tariff remains unchanged. Is Mr Acheson a true friend of these farmers, when his paper is trying to break down the protection that gives them a reasonable price for their product? All that Mr. Acheson cares about electing a Democratic Congressman in this district is to get revenge on the man who defeated him for the Republican nomination for Congress.

Capitalizing Brains

A recent writer in the Saturday Evening Post contributes an article under the caption of "Capitalizing Brains" that should be read and followed by every man who holds a subordinate position, no matter in what occupation or profession. The gist of the article is that every worker, whether a section hand or a clerk in a big corporation office, has it within his power, simply by using his brains, to advance himself and materially better his condition, eventually attaining the true destiny of the human race, which is "man's progress upward and onward forever."

All that is necessary is for the worker to make a study of what he is doing and do it so effectually that the foreman or superintendent will not have to revise and correct his work. The section man who levels up his portion of track accurately and ballasts it prefectly, will attract the attention of his superiors, and when a man is needed to take a position a little higher up in his line, he will be selected. The railway clerk who makes a study of tariffs, routes, and connections in his department, and extends and knowledge in that direction, is a valuable man, and is sure of ultimate promotion. Not long ago a position in one of the big tube mills was offered to a young fellow in this community, which consisted of looking after the shipment of tubing, in charge of a gang of loaders. The head of the department said he had lots of trouble with that department, as so many orders were mixed in the shipments. The trouble was because the one in charge invariably failed to see that his orders to the loaders were accurately carried out, a duty that any high school boy could attend, if he paid attention to the work in hand This position was worth infinitely more than the salary offered, as the one who could fill it to the satisfaction of the corporation would establish a reputation for accuracy and reliability, which would inevitably insure promotion.

One of the greatest handicaps under which working men labor is the idea that they are being wronged, and that society is organized for the express purpose of oppressing and keeping them down. The man who nurses this grievance and bears a grudge against society, is forging the fetters around his own neck from which he will never escape. This is the man who wants the greatest pay for the least amount of work, and who looks at nothing except the clock. The one who studies every detail of his work, learns what is to be done and does it in a manner that does not require constant supervision, is the one who will advance. The opportunity was never so great for the young man who qualifies, and it is within the power of the most humble to fit themselves for renumerative positions of honor and trust.

ELECTRIC SPARKS

Dollar bills and bills of other denominations are to be made smaller according to official announcement. Within the past decade the bills have gradually been diminishing as regards purchasing power.

Those who are unable to afford sweet milk might try the other alternative of freezing skim milk, cornstarch and sugar into ice cream then melting it down to get sweet cream for their coffee.

Under the constitution of 1908, China is to have a parliament in 1917. But then it always did take them so long to do anything even after they have spent centuries in deciding it should be done.

Aha!

"Miss Sparks, I was about to propose—

"Really, Mr. Timrod, I'm sorry, but"—

"That we have some ice cream—"

"Oh, I would be delighted to—"

"Some evening when the weather is warmer."

Everbyody feels that this method of ejnoyment is the most important thing to his welfare.

From what we have been able to learn by observation and otherwise, Charleroi is blessed with about the best looking bunch of school marms this year the town ever had.

In some places they won't grant certificates to teachers who chew tobacco. How about the fellows that use "paint?"

Monessen is hardly less interested in the Republican rally Saturday than is Charleroi.

Horrors! The school teachers are not allowedto dance or even attend parties in Amwell township. The final conclusion would be that if the girls are to have a good time they must have it with the school directors.

READ THE MAIL

EVERY ONE NEEDS IT

W. H. Hennings is Having a Wonderful Sale of Thompson's Barosma, the Mighty Kidney and Liver Specific.

And no wonder, when he offers to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, backache, sideache, nervousness, or any weakness of the kidneys.

But Thompson's Barosma has made so many almost mircaulous cures that Mr. Hennings is pretty certain not to have any returns.

Here are a few instances:

Frank K. Sturges, Sturtevant, Crawford Co., Pa., was cured of Bright's disease, six years ago, and only took 6 bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."—M. S. Langworthy, Tryonville, Pa.

Mrs Fred Lobeilntz, of Titusville, Pa., writes that her four year old son was permanently cured of chronic bedwetting with 3 bottles of Thompson's Barosma

Orson Hopkins of Townville, Pa, was refused life insurance because of kidney complaint, and told that he would not live many morths Five bottles cured him, as it has cured thousands before him and thousands since.

After suffering the terrible agony of rheumatism for 10 years, being compelled to use crutches, J. N. Dunn, Troy Center, Pa., after all hope had left him, and he had no faith in any remedy, took 6 bottles of Thompson's Barosma, threw away his crutches, and went too work for the first time in 10 years.

These statements are absolutely true, and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can they suffer when W. F. Hennings guarantees to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and $1.00 a bottle.

CANONSBURG BOOZE SELLERS SENTENCED ON PLEAS OF GUILTY

Yesterday at court Guiseppe Crinit of Canonsburg admitted selling liquor without license, on Sunday and to minors. He was sentenced to pay a fine of $500 and costs and spend three months in all on the charge of selling without license. On the other charges he was senenced to pay the costs, a fine of $100 and to undergo imprisonment in the county jail for a month and ten days, this sentence to run concurrent with the first.

Tony Losko also admitted selling liquor without license at Canonsburg. He was directed to pay the costs, a fine of $500 and undergo imprisonment in the county jail for three months.

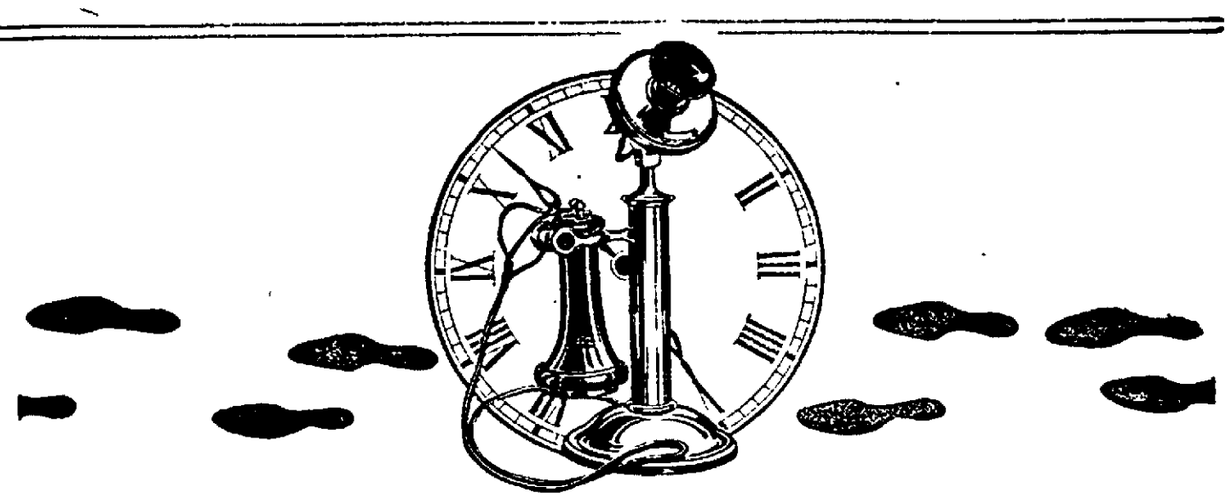
Were you able to make a purchase Saturday? Could you get near the store? If you didn't, come this week. We have plenty of clerks and lots of big bargains.

ADOLPH OF COURSE



Saves Time and Steps

Last year the Bell Telephone System handled Six Billion calls—or one hundred and ninety *for every second.*

If each message meant a saving of only ten minutes time—a most conservative estimate—it means that in 1909 the Bell System saved to the American people, *time* equivalent to 114,155 years.

In other words the Bell System rendered a service which would take an individual messenger 114,155 years to accomplish.

A saving of ten minutes per call does not begin to represent the saving of time and steps even in the message across the street—much less the saving in the long distance message across the country.

Nor does the mere saving in time begin to represent the comfort, the convenience, the *dispatch* afforded by these six billion messages sent from the five million Bell stations all over the country.

The Bell System *gets things done.* It vitalizes affairs by instilling into them the spirit of NOW. Makes the business of tomorrow the transaction of the minute. Makes thoughts *facts.* Economizes a Nation's time. Conserves a Nation's energy.

The Bell Long Distance Service has broadened the scope of a Nation's interests. Has given the minute a value of many. Has given the people a hold on time. Has brought Opportunity within grasping distance. Has accelerated the growth of the NATION.

BELL SYSTEM

Children! Children!! My! what a noise!

But it's not the children — it's your head

ANTI-ACHE

"Cures headache in a flash." Soothes and quiets—Puts your head in a quiet, normal condition—clear as a bell—free from pain—Does not affect the heart. Any druggist, 10c and 25c Wayne Chemical Co. Clarion, Pa.

TIMELY BREVITIES

The United States mint was established in 1792.

There are over 5,000 agricultural associations in France and Algeria.

Switzerland buys more than $12,000,000 worth of eatables from Germany annually.

Fresh beef is wholly supplied to the Philippines by Australasia; lard and bacon by China.

Siam has exported an average of a million tons of milled rice annually for the last five years.

A trade journal in the English language is printed in Helsingfors, the capital of Finland.

Bishop Bowman of the Methodist Episcopal church recently celebrated his ninety-seventh birthday.

The Romans, having conquered Spain, introduced Tarentine fine wool sheep there. This was 200 B. C.

An Englishman claims to have invented a punctureless automobile tire made so by a protective inner lining.

The workmen's insurance in Denmark costs a laborer from $1.07 a year to $21.44 in particularly hazardous work.

A powerful microscope is recommended by the department of agriculture as a kitchen utensil to detect adulterants.

The new king of England has become ex officio an honorary canon of St. David's cathedral, with an annual stipend of $15.

Several members of the royal family of Siam are expert amateur photographers and have done much to advance the art in that land.

Sixty per cent of the patents granted yearly in this country are worthless. Nearly 90 per cent of the electrical patents are practical.

A candidate for a schoolteachership in New York recently told an examiner that the alimentary canal was somewhere out in Kansas.

The part of Formosa in possession of savage tribes is said to contain forests of fabulous wealth and probably also rich mineral deposits.

The Thousand islands is the motorboat metropolis of the world. Over 3,000 were operated in the Thousand islands region last year.

It will take 100 men two years to break up the old British battleship Thunderer, which has been condemned for the metal she contains.

A countrywide crusade against "the great white plague," tuberculosis, is being waged in England along much the same lines as in America.

Hawaiian capital to the extent of $1,500,000 is to be used in the development of a 20,000 acre sugar plantation within thirty miles of Manila.

In Germany, where the consumption of edible fats is large, there are now seven companies crushing cocoanuts and refining the oil for edible use.

The Brazilian government has decided to maintain in the famous botanical gardens of Rio de Janeiro a department for the study of plants and trees for commercial purposes.

Within a short space of time Queensland will be as celebrated for its sapphires as South Africa is for diamonds. Many profitable diggings are being opened up in the bush.

Consul Albert Halstead states that the electrical department of the English city of Birmingham is endeavoring to increase the use of electricity in every way, one of which is the renting of motors.

Suez canal has proved to be one of the most profitable commercial undertakings in the history of the world, and the Manchester ship canal is now accomplishing all and more than was promised at first.

After a fierce seven hour struggle Seattle fishermen caught a monster shark thirty-six feet long and weighing over fifteen tons. The tail was full of splinters as a result of a struggle on the part of the shark to destroy the boat from which it was finally caught.

Gleaming buttons for service uniforms were abolished by Uncle Sam years ago because they made the soldiers fatally conspicuous on the field of battle. Instead of hooks and eyes, as the worthy peace advocate suggested, their garments are united by dull black buttons.

In some parts of Germany mice and rabbits do so much harm in the fields and gardens that the public authorities and special organizations of farmers undertake the work of destruction. The usual method is poisoning by means of bread containing the Loeffler mouse bacillus.

The Earl of Crewe, British secretary of state for the colonies, goes so far as to admit that Canada's independence now extends to international negotiations and treaties, and this is quoted approvingly in the Dominion as a certain indication that a new stage has been reached in colonial history.

The hope of Singapore is for a great trunk line railway running from this southern point of the Malay peninsula northward through Siam to Burma and on to India and a branch line through Cambodia into China. Some day that hope will be realized. Within a radius of 2,000 miles of the little island on which Singapore is built there is a population of 700,000,000.

Geologists believe that in a far remote age the great lakes were a part of the Atlantic ocean, and tangible evidence to support this theory was recently furnished by the capture of a sculpin from the deepest waters of Lake Ontario. Men of science say that the fish is a new species in fresh water and presumably a descendant of the salt water sculpins of an earlier era.

A Spartan Father.

Recently a first year high school pupil handed her history teacher what she evidently considered an exhaustive and final study of Lacedaemonian customs. In it she stated that one Spartan habit of strengthening youth was to compel the boys to sleep always on beds and thistles.

The incident reminds one of a story that is told of one of the Camerons of Lochiel.

The chief, when bivouacking with his son in the snow, noticed that the lad had rolled up a snowball to make a pillow. He thereupon rose and kicked it away, saying sternly, "No effeminacy, boy!"—Youth's Companion

Burning a Diamond.

The diamond was first burned by Davy and Faraday in 1814. It was held on a platinum rod in a glass globe of twenty-two cubic inches of pure hydrogen and the Duke of Tuscany's burning glass—a lens of fourteen inches and one of three inches separated six and one-half feet—concentrated the sun's heat. In three-quarters of an hour the stone burst into a scarlet flame. Out of focus it blazed four minutes and was consumed in two more trials.

Playing Safe.

"Johnny," said the teacher, "this is the third time I have had to punish you this week. Why are you so naughty?"

"Because," answered the incorrigible youngster, "grandpa says the good die young, and I ain't takin' any chances."—Chicago News.

A Bold Jollier.

Mrs. Hashleigh—Yes, we've been having considerable trouble with our milk lately. Do you take your coffee with or without?

New Boarder—I take it within.—Boston Transcript.

Of Course Not.

If a man really loves a woman of course he wouldn't marry her for the world if he were not quite sure he was the best person she could by any possibility marry.—Holmes.

Too Rusty.

Lady (after singing a few rusty notes)—Don't you think my voice should be brought out? Manager—No; pushed back.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle.

Take Hall's Family Pills for constipation

A THRILLING RIDE.

The Piano Run a Frenchman Gave a Locomotive Engineer.

"I was loitering around the streets last night," said Jim Nelson, one of the old locomotive engineers running into New Orleans. "As I had nothing to do I dropped into a concert and heard a sleek looking Frenchman play a piano in a way that made me feel all over in spots. As soon as he sat down on the stool I knew by the way he handled himself that he understood the machine he was running. He tapped the keys away up one end, just as if they were gauges and he wanted to see if he had water enough. Then he looked up as if he wanted to know how much steam he was carrying, and the next moment he pulled open the throttle and sailed on to the main line as if he was half an hour late. You could hear her thunder over culverts and bridges and getting faster and faster, until the fellow rocked about in his seat like a cradle. Somehow I thought it was old 36 pulling a passenger train and getting out of the way of a special. The fellow worked the keys on the middle division like lightning, and then he flew along the north end of the line until the drivers went around like a buzz saw and I got excited. About the time I was fixing to tell him to cut her off a little he kicked the dampers under the machine wide open, pulled the throttle away back in the tender, and how he did run! I couldn't stand it any longer, and yelled to him that he was pounding in the left side, and if he wasn't careful he'd drop his ash pan. But he didn't hear. No one heard me. Everything was flying and whizzing. Telegraph poles on the side of the track looked like a row of cornstalks, and trees appeared to be a mudbank, and all the time the exhaust of the old machine sounded like the hum of a bumblebee. I tried to yell out, but my tongue wouldn't move. He went around the curves like a bullet, slipped an eccentric, blew out his soft plug—went down grades fifty feet to the mile and not a controlling brake set. She went by the meeting point at a mile and a half a minute, and calling for more steam. My hair stood up straight, because I knew the game was up. Sure enough, dead ahead of us was the headlight of a special. In a daze I heard the crash as they struck, and I saw cars shivered into atoms, people smashed and mangled and bleeding and gasping for water. I heard another crash as the French professor struck the deep keys away down on the lower end of the southern division, and then I came to my senses. There he was at a dead standstill, with the door of the firebox of the machine open, wiping the perspiration off his face and bowing to the people before him. If I live to be a thousand years old I'll never forget the ride that Frenchman gave me on a piano."—Life.

BENEFIT GAMES TO BE PLAYED FOR HOSPITAL

Under direction of the Charleroi Woman's Hospital Auxiliary, two baseball games will be played at the local ball park Wednesday and Thursday afternoon. The contesting teams will be the Episcopal and Catholic teams of the Church League. The Episcopals are the pennant winners of the league and the Catholics were a close second. The games will be virtually a post series between the leaders, and on that account each team will put forth its best efforts. If each team takes a game in the two scheduled, a third game will be played probably Saturday.

The games will be called at 3:30, and an admission will be charged of 25 cents for men and 10 cents for ladies. As they are promoted for a worthy cause everyone is urged to attend.

Liked the Other Kind.

It was in a "down east" village that the young man met his sweetheart—a charming country beauty. When he returned to the city he sent her a jar of cold cream to keep her cheeks as fresh as the budding rose.

On his next visit he asked her how she liked his little gift.

"The taste was very nice," she said with a sickly smile, "but I think I like the other kind of cream best, dear."—Lippincott's.

Return Ticket For Him.

Baseball Fan—Some time ago you told me about a bird of a pitcher you found in a bush league. You took him in hand, didn't you?

Manager-Captain—Sure! But I found that particular bird was worth more in the bush than in the hand.—Illustrated Sunday Magazine.

Down to Facts.

"Did you ever get a diamond ring at the seashore?"

"Don't make me laugh. But I'll tell you what did happen."

"What?"

"A fellow I was engaged to once bought me an ice cream soda."—Louisville Courier-Journal.

Postal Work.

Ascum—Say, what is the difference between a fourth class and a third class postoffice? Do you know?

Wise—Well, in the former the postmaster always finds time to read all the postal cards himself; in the latter sometimes he doesn't.—Catholic Standard and Times.

LOCAL MENTION

Interesting News Items Condensed for Busy Readers.

The Woman's Missionary society of the First Presbyterian church will meet at the home of Mrs. George Might of McKean avenue tomorrow at 2:30 p. m.

Joseph Wentezl and son George were visiting in Tarentum over Saturday and Sunday.

NEW LINES TO GIVE THREE RAILROADS ACCESS INTO UNDEVELOPED TERRITORY

MORGANTOWN GRAND TERMINAL OF ALL ROUTES TO EAST AND WEST

P. and L. E. to Construct Connecting Tracks from Fayette County to Point in West Virginia

With the construction shortly of a contemplated connecting line from their present terminal in Fayette county to Morgantown by the P. and L. E. railroad, the construction of an entirely new railroad in West Virginia, and improvements to be made and new tracks to be laid by both the Pennsylvania and Baltimore and Ohio railroads, an outlet is promised for the three large corporations shortly in north, south, east and west, with Morgantown, as the center. Before these plans can be accomplished traffic arrangements have to be perfected, but it is understood with the advantages to be gained by all roads by such agreements there would be no delay.

It has long been known that the P. and L. E. contemplated continning their tracks to Morgantown. From Kingwood, W. Va., to the same terminal, a railroad to be eventually taken over by the Little Kanawha syndicate, and known as the Coal and Coke railroad, is to be constructed. At Dunkard, Greene county, Pennsylvania, a bridge is to be built by the Pennsylvania railroad company which is to lead their tracks to that point and across the Monongahela river. Near this point by the traffic arrangements the Pennsylvania will have access over the P. and L. E. tracks to Morgantown. The Baltimore and Ohio railroad comes in from the east to Morgantown, and thence has lines to Cincinnati. These the P. and L. E. and the Pennsylvania are to be allowed to use for traffic to the west, in return with connection along the Monongahela river to Pittsburg.

The bridge to be placed at Dunkard is the one that is at present being dismantled at Beaver. All three railroads, which combined to shut out the Wabash from Greene county some years ago by purchasing all their proposed routes, have had an eye on the rich West Virginia undeveloped coal fields for some time, and it is mainly for access to these that the long drawn out palns have been formulated. Through the new arrangemen tCharleston, will be connected by a through line to Morgantown, W. Va., and in a more direct way with Pittsburg.

DONORA TO HOLD MEET LABOR DAY

Many Good Athletic Events Planned At Neighbor Town

ENTRIES BEING RECEIVED

The committee in charge of the third annual track and field meet to be held at Steel Works Park, Donora, Pa, on Labor Day, are leaving nothing undone to make this affair the best that has ever taken place in the Monongahela Valley. The meet will be held under the sanction of the Amateur Athletic Union and has attracted a large number of entries. Following are the events:

100-yard dash, open; 440-yard dash, open; 5-mile handicap; 220 yard dash, open; 880-yard dash, open; 150-yard handicap, open; 4-5 mile relay cup race, 4 men teams, open only to teams of the Mononaghela Valley; pole vault, open; high jump, open.

Gold, silver and bronze medals are offered for first, second and third, respectively, in all events except the relay race, for which a cup is given the winning team, which cup is to be contested for annually until won three times, and 5-mile race, for which a silver cup will be given the winner; also five other prizes.

Business Men Expected To Ride Horses

Arrangements Made at Meeting for Participation in Parade

Members of the Charleroi Business Men's Association are expected to turn out on horseback Saturday evening to participate in the parade in opening the Republican State campaign. A special meeting was held last night of the association to take the place of the regular meeting which would have been held Thursday evening, and a special committee was appointed to see business men of the town in regard to their participation in the parade. This committee consists of J. B. Schafer, William Kirk, L. Collins, N Greenberg, C. J. Mathews and President John H. Bowers.

Simington

Neal Hartley Simington, the 5-months old son of Mr. and Mrs. Jesse Simington, of Crest avenue and Seventh street, died this morning at 7 o'clock. The funeral will be held from the home on Wednesday afternoon at 2 o'clock and interment will be in the Charleroi cemetery. Monessen and Waynesburg papers are requested to copy.

Resolved

That you will go and see the line of Post Cards for 1c at Might's Book store. 18t2

Won't Leave Enough for Grease Spot

Nearly Entire Population Coming from Monongahela

"There won't be enough people left in Monongahela Saturday night to make a grease spot," said Alderman "Dick" Ellwood yesterday in speaking of the Tener rally to take place in Charleroi on that day. The Monongahela people, not less jubilant than Charleroi over the opening of the campaign in Congressman Tener's home town, plans to send a large delegation, including their famous uniformed Ku Klux Klan, who will have about 300 of the phantoms in line.

BENEFIT OUTING TO BE HELD FOR LOCAL HOSPITAL

Pragram of Sports Arranged for Affair at Eldora Wednesday

For the benefit outing to be held for the Monessen-Charleroi hospital at Eldora Park Wednesday a program of sports has been arranged, consisting of races and contests of a various nature. A baby contest will be held, and a prize will be awarded for the prettiest and the fattest baby. The prorgam of sports follows:

100-yard dash for men.

50 yard dash for boys under 16 years

50-yard dash for girls under 16 years.

50-yard dash for men running backwards.

Potato race.

Sack race.

Egg and spoon race for ladies.

50-yard dash for ladies.

A charity ball will be held in the afternoon and evening, when there will be dancing on the pavillion.

THE NEW SYSTEM

The system of Bookkeeping and Office Practice which the Douglas College has just introduced is a radical departure from old methods.

One reason why the ordinary boy or girl gets tired of his school life is because there is no variety. The students never do anything for themselves, but think they are doing pretty well if they follow instructions.

So much depends upon memorizing rules.

The Bliss System of Actual Business from the Start, the one now to be used in the Business College—is a Learning by Doing system. It develops judgment, common sense, and initiative, because every transaction, such as buying and selling, making deposits in the bank, paying bills, giving out receipts, etc., is performed with one of the seven business offices.

It is a real transaction; that is why it is so interesting. It inculates the idea of doing things well, because there is promotion ahead. Can you think of anything that would be a stronger incentive to develop good work than this same idea of promotion?

In the Office Practice department is where the student learns real Bookkeeping as it is applied to different lines of business. It is here that he assumes responsibility? It is in one of the offices, as Manager or President, that he begins to feel the responsibilities of the business man.

But why try to describe a thing that is beyond description. To understand it, you must personally examine the course. This you are invited to do any day that you can call at the College.

Douglas Business College,
Charleroi, Pa.

GOVERNMENT IS NOW IN POSSESSION

Money is Paid Over for Public Building Site

DEEDS PLACED ON RECORD

The United States government is now in full possession of the ground at the corner of Fallowfield avenue and Seventh street purchased for the Federal building site. All money has been paid to the former owners and the deeds recorded of the purchase. The money was paid over on Saturday by Assistant United States District Attorney H. S. Lydick, of Pittsburg, the total purchase price being $20,775. This sum was divided as folows among the three holders of the property: Simon Delchevalire $9,725; Mrs. Florentine Malicord, $7,700; Mrs. Mary Didat $3,350. The deeds were recorded some time ago, after the Government agents had thoroughly investigated the titles.

There are three houses on as many lots of the property. These are to be removed by the owners upon 60 days notice from the Government.

DONORA TO SEND BIG DELEGATION AND THREE BANDS

Down River Town Enthusiastic Over Rally Here Saturday

Donora expects to send a delegation of at least 1,500 persons to Charleroi Saturday for the opening of the State campaign, and this number will bring along three bands. A meeting was held at that place last night, and arrangements made for attending the rally. Great enthusiasm was shown.

The Donora delegation will, like the Monessen division, come arrayed in badges, uniformed. They will have banners and expect to create somewhat of an impression. The mills will close down at 3 o'clock in order that the employes may take advantage of the opportunity to come to Charleroi and join with other enthusiasts in supporting the home candidate for Governor.

GOOD TEACHING CORPS ENGAGED FOR THE SEASON

Charleroi has as good or a better teaching force this year than ever. There are ten new teachers out of the 47 instructors, two of these principals. The names of the teachers follow, the new ones being indicated by a star, and the names of the principals appearing first in the list for each building:

Fifth street building—Misses Grace Zillafro, Bernette McDonough, Elizabeth Elliott, Nelle Steele, Bertha Oller, Florence Crill, *Vida Goehring, *Grace Noble, *Mrs. Clara Zimmerman, *Miss Anna Davidson, Miss Ida Hugg.

Ninth street building—Misses *Beatrice Chapman, Edith Woodhall, Mary Lewis, Edith Baldwin, Harriet Wagner, Nelle Scott, Harriet Jolliffe, Mary McGee, Mary Blankenbuehler, *Florence Montgomery, Clara G. Cooper, Mina Houseman.

Second street building—Misses Etta M. Work, Judith Collins, *Ruth Shutt, Ella Greenwood, Fannie Arrison Della Swan, Elizabeth Wyatt, Jean Hawthorne, Mrs. Dolly Jeffries.

Crest avenue building—Misses *Nelle Lee, *Grace Sloan, Ina Kline, Nell Hopkins, Winifred Martin, *Ruth Middleton, Daisy Porch, Nora Swan, Mary Thompson, Mary Kelly.

High School—*D. C. Williard, *W. A. Swick, Miss Mary Walters.

SCHOOL ATTENDANCE BETTER THAN AT START LAST YEAR

Nearly 1,800 Pupils Report at Second Day's Session and New Record is Made for Charleroi

APPROVED COURSE OF STUDY THROUGHOUT

The Charleroi schools started off Saturday with the highest enrollment in its history, and with more coming in this morning, it looks as though the first school month would witness the usual crowded condition of mid term. Yestreday the total enrollment was 1,715, and this morning there were about 40 more who came in at the buildings, bringing up the enrollment the second day to 1,755. Last years' enrollment on the first day did not quite total 1,700 pupils, and on September 16 had only passed the 1,800 mark.

In the eighth grade is a very noticeable increase in the number of pupils, there being about 80 present there, in comparison to the 48 or less in previous years.

In the grades there new readers have been installed, and the classes in high school now reach the full requirements of the State course of study. This high school course is not only calculated for college entrance but also for a practical education, and consists of Latin up to Virgil, one year of German, two years of ancient rhetory, one year of United States history, one year of English and composition, one year of composition and rhetoric, one year of study of authors, three years of science, two years of algebra, and one year of plane geometry.

Superintendent James G. Pentz states that children who will be six years old on or before panuary 1 may be enrollled in school the first two weeks of the present term, but not after that. All persons between the ages of 14 and 16 years who hold employment certificatees, but who are not working, will be compelled to attend school. On this matter Superintendent Pentz has received advice from State Factory Inspcetor J. G. Delaney, and those who hold certificates must either go to school or go to work.

AUTOISTS MUST BLOW HORNS AT CORNERS

Many Drivers Present at Special Council Session

WHERE STREET CARS STOP

Effort to Be Made to Lessen Number of Serious Accidents

A number of automobiles and street car men were present at the meeting of council last night upon invitation of that body to be instructed on points of the law regarding the driving of automobiles and running of street cars in the borough. Sections of the law were read, and council asked that the auto drivers in turning corners turn them in such a way as to prevent accidents, and to blow their horns at corners. The street car men were asked to stop cars on the approach to a crossing and not after the crossing is passed, and at the crossings where they do not stop to slow up and ring their bells. Ex-Burgess J. J. Hott stated that the automobilists were contemplating forming an automoile association, and that this body would be govrerned by regulations strictly in accoradnce with the law.

Notice

A Meeting of the Boys Brigade will be held this evening at 7:30 n the Business Men's Association rooms.

Team Reorganizes For Next Year

Washington Avenues Close Year With Good Balance In Treasury

At a meeting of the Washington Avenue Presbyterian baseball team last night a report was made showing a balance in the treasury of nearly $50. Reorganization was effected for the coming year by electing Dr. J. W. Manon, president, and Paul Rylands secretary. Bert Mitchell was re-eletecd manager, and Ed. James was elceted captain for next year's team.

TWO FILTER TUBS READY FOR USE

Two of the filter tubs of the new filtration plant being installed by the Phil and Miller company for the Charleroi Water company are finished and could be used for the purpose of filtering water at the present time. There are four more to be completed. In the pumping station the high pressure engine has been installed and is ready for use. The wall on the street side and the wall on the railroad side, of the sedimentation bain are both finished. The contracting company expects to have the plant finished by September 15.

Coming Back

Taft or Acheson?

Concerning the opposition of the Washington Observer, the organ of Former Congressman E. F. Acheson, to Republicanism in Washington county, the Record says:

Will Ernest F. Acheson, ex-member of Congress, where he sat for years as a high tariff Republican, take issue with President Taft when he says to Congressman W. B. McKinley, chairman of the Republican campaign committee—

"The question for decision will be in (November) whether we shall have in the House of Representatives a Republican or a Democratic Majority?"

When Acheson assumes the leadership in this county for a Democratic renegade, running on an "independent" ticket with the avowed purpose of electing Democratic Congressmen in Pennsylvania, does he frankly, openly, and honestly dare repudiate and deny this statement from President Taft?

What do the wool growers in the Western part of the county think of the Observer's attitude? The Observer has been industriously knocking the tariff on wool, yet the growers of the county sent a delegation to the national capital to protest against any reduction in the duty. Their protests were heeded, and the tariff remains unchanged. Is Mr Acheson a true friend of these farmers, when his paper is trying to break down the protection that gives them a reasonable price for their product? All that Mr. Acheson cares about electing a Democratic Congressman in this district is to get revenge on the man who defeated him for the Republican nomination for Congress.

Capitalizing Brains

A recent writer in the Saturday Evening Post contributes an article under the caption of 'Capitalizing Brains" that should be read and followed by every man who holds a subordinate position, no matter in what occupation or profession. The gist of the article is that every worker, whether a section hand or a clerk in a big corporation office, can if within his power, simply by using his brains, to advance himself and materially better his condition, eventually attaining the true destiny of the human race, which is "man's progress upward and onward forever."

All that is necessary is for the worker to make a study of what he is doing and do it so effectually that the foreman or superintendent will not have to revise and correct his work. The section man who levels up his portion of track accurately and ballasts it prefectly, will attract the attention of his superiors, and when a man is needed to take a position a little higher up in his line, he will be selected. The railway clerk who—makes a study of tariffs, routes, and connections in his department, and extends and knowledge in that direction, is a valuable man, and is sure of ultimate promotion. Not long ago a position in one of the big tube mills was offered to a young fellow in this community, which consisted of looking after the shipment of tubing, in charge of a gang of loaders. The head of the department said he had lots of trouble with that department, as so many orders were mixed in the shipments. The trouble was because the one in charge invariably failed to see that his orders to the loaders were accurately carried out, a duty that any high school boy could attend, if he paid attention to the work in hand. This position was worth infinitely more than the salary offered, as the one who could fill it to the satisfaction of the corporation would establish a reputation for accuracy and reliability, which would inevitably insure promotion.

One of the greatest handicaps under which working men labor is the idea that they are being wronged, and that society is organized for the express purpose of oppressing and keeping them down. The man who nurses this grievance and bears a grudge against society, is forging the fetters around his own neck from which he will never escape. This is the man who wants the greatest pay for the least amount of work, and who looks at nothing except the clock. The one who studies every detail of his work, learns what is to be done and does it in a manner that does not require constant supervision, is the one who will advance. The opportunity was never so great for the young man who qualifies, and it is within the power of the most humble to fit themselves for remunerative positions of honor and trust.

ELECTRIC SPARKS

Dollar bills and bills of other denominations are to be made smaller according to official announcement. Within the past decade the bills have gradually been diminishing as regards purchasing power.

Those who are unable to afford sweet milk might try the other alternative of freezing skim milk, cornstarch and sugar into ice cream then melting it down to get sweet cream for their coffee.

Under the constitution of 1908, China is to have a parliament in 1917. But then it always did take them so long to do anything even after they have spent centuries in deciding it should be done.

Aha!

"Miss Sparks, I was about to propose—

"Really, Mr. Timrod, I'm sorry, but"—

"That we have some ice cream—"

"Oh, I would be delighted to—"

"Some evening when the weather is warmer."

Everbody feels that this method of ejnoyment is the most important thing to his welfare.

From what we have been able to learn by observation and otherwise, Charleroi is blessed with about the best looking bunch of school marms this year the town ever had.

In some places they won't grant certificates to teachers who chew tobacco. How about the fellows that use "paint?"

Monessen is hardly less interested in the Republican rally Saturday than is Charleroi.

Horrors! The school teachers are not allowedto dance or even attend parties in Carroll township. The final conclusion would be that if the girls are to have a good time they must have it with the school directors.

READ THE MAIL

EVERY ONE NEEDS IT

W. H. Hennings is Having a Wonderful Sale of Thompson's Barosma, the Mighty Kidney and Liver Specific.

And no wonder, when he offers to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, backache, sideache, nervousness, or any weakness of the kidneys.

But Thompson's Barosma has made so many almost miraculous cures that Mr. Hennings is pretty certain not to have any returns.

Here are a few instances:

Frank K. Sturges, Sturtevant, Crawford Co., Pa., was cured of Bright's disease, six years ago, and only took 6 bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."—M. S. Langworthy, Tryonville, Pa.

Mrs Fred Lobeilntz, of Titusville, Pa., writes that her four year old son was permanently cured of chronic bedwetting with 3 bottles of Thompson's Barosma.

Orson Hopkins of Townville, Pa, was refused life insurance because of kidney complaint, and told that he would not live many months. Five bottles cured him, as it has cured thousands before him and thousands since.

After suffering the terrible agony of rheumatism for 10 years, being compelled to use crutches, J. N. Dunn, Troy Center, Pa., after all hope had left him, and he had no faith in any remedy, took 6 bottles of Thompson's Barosma, threw away his crutches, and went too work for the first time in 10 years.

These statements are absolutely true, and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can they suffer when W. F. Hennings guarantees to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and $1.00 a bottle.

CANONSBURG BOOZE SELLERS SENTENCED ON PLEAS OF GUILTY

Yesterday at court Guiseppe Crinit of Canonsburg admitted selling liquor without license, on Sunday and to minors. He was sentenced to pay a fine of $500 and costs and spend three months in all on the charge of selling without license. On the other charges he was senenced to pay the costs, a fine of $100 and to undergo imprisonment in the county jail for a month and ten days, this sentence to run concurrent with the first.

Tony Losko also admitted selling liquor without license at Canonsburg. He was directed to pay the costs, a fine of $500 and undergo imprisonment in the county jail for three months.

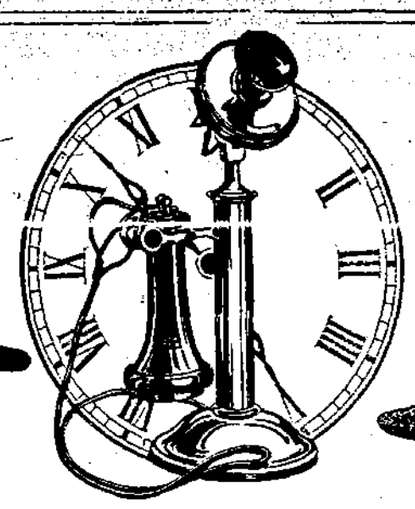
ADOLPH OF COURSE



Saves Time and Steps

Last year the Bell Telephone System handled Six Billion calls—or one hundred and ninety *for every second.*

If each message meant a saving of only ten minutes time—a most conservative estimate—it means that in 1909 the Bell System saved to the American people, *time* equivalent to 114,155 years.

In other words the Bell System rendered a service which would take an individual messenger 114,155 years to accomplish.

A saving of ten minutes per call does not begin to represent the saving of time and steps even in the message across the street—much less the saving in the long distance message across the country.

Nor does the mere saving in time begin to represent the comfort, the convenience, the *dispatch* afforded by these six billion messages sent from the five million Bell stations all over the country.

The Bell System *gets things done.* It vitalizes affairs by instilling into them the spirit of NOW. Makes the business of tomorrow the transaction of the minute. Makes thoughts *facts.* Economizes a Nation's time. Conserves a Nation's energy.

The Bell Long Distance Service has broadened the scope of a Nation's interests. Has given the minute a value of many. Has given the people a hold on time. Has brought Opportunity within grasping distance. Has accelerated the growth of the NATION.

Several members of the royal family Siam are expert amateur photogra-ers and have done much to advance e art in that land.

Sixty per cent of the patents granted arly in this country are worthless. early 90 per cent of the electrical tents are practical.

A candidate for a schoolteachership New York recently told an examiner at the alimentary canal was some-here out in Kansas.

The part of Formosa in possession of vage tribes is said to contain forests fabulous wealth and probably also ch mineral deposits.

The Thousand islands is the motor-at metropolis of the world. Over 000 were operated in the Thousand lands region last year.

It will take 100 men two years to eak up the old British battleship hunderer, which has been condemned r the metal she contains.

A countrywide crusade against "the eat white plague," tuberculosis, is eing waged in England along much ne same lines as in America.

Hawaiian capital to the extent of 1,500,000 is to be used in the develop-ment of a 20,000 acre sugar plantation within thirty miles of Manila.

In Germany, where the consumption of edible fats is large, there are now seven companies crushing cocoanuts and refining the oil for edible use.

The Brazilian government has decided to maintain in the famous botanical gardens of Rio de Janeiro a department for the study of plants and trees for commercial purposes.

Within a short space of time Queensland will be as celebrated for its sapphires as South Africa is for diamonds. Many profitable diggings are being opened up in the bush.

Consul Albert Halstead states that the electrical department of the English city of Birmingham is endeavoring to increase the use of electricity in every way, one of which is the renting of motors.

Suez canal has proved to be one of the most profitable commercial undertakings in the history of the world, and the Manchester ship canal is now accomplishing all and more than was promised at first.

After a fierce seven hour struggle Seattle fishermen caught a monster shark thirty-six feet long and weighing over fifteen tons. The tail was full of splinters as a result of a struggle on the part of the shark to destroy the boat from which it was finally caught.

Gleaming buttons for service uniforms were abolished by Uncle Sam years ago because they made the soldiers fatally conspicuous on the field of battle. Instead of hooks and eyes, as the worthy peace advocate suggested, their garments are united by dull black buttons.

In some parts of Germany mice and rabbits do so much harm in the fields and gardens that the public authorities and special organizations of farmers undertake the work of destruction. The usual method is poisoning by means of bread containing the Loeffler mouse bacillus.

The Earl of Crewe, British secretary of state for the colonies, goes so far as to admit that Canada's independence now extends to international negotiations and treaties, and this is quoted approvingly in the Dominion as a certain indication that a new stage has been reached in colonial history.

The hope of Singapore is for a great trunk line railway running from this southern point of the Malay peninsula northward through Siam to Burma and on to India and a branch line through Cambodia into China. Some day that hope will be realized. Within a radius of 2,000 miles of the little island on which Singapore is built there is a population of 700,000,000.

Geologists believe that in a far remote age the great lakes were a part of the Atlantic ocean, and tangible evidence to support this theory was recently furnished by the capture of a sculpin from the deepest waters of Lake Ontario. Men of science say that the fish is a new species in fresh water and presumably a descendant of the salt water sculpins of an earlier era.

A Spartan Father.

Recently a first year high school pupil handed her history teacher what she evidently considered an exhaustive and final study of Lacedaemonian customs. In it she stated that one Spartan habit of strengthening youth was to compel the boys to sleep always on beds and thistles.

The incident reminds one of a story that is told of one of the Camerons of Lochiel.

The chief, when birouacking with his son in the snow, noticed that the lad had rolled up a snowball to make a pillow. He thereupon rose and kicked it away, saying sternly, "No effeminacy, boy!"—Youth's Companion.

Burning a Diamond.

The diamond was first burned by Davy and Faraday in 1814. It was held on a platinum rod in a glass globe of twenty-two cubic inches of pure hydrogen and the Duke of Tuscany's burning glass—a lens of fourteen inches and one of three inches separated six and one-half feet—concentrated the sun's heat. In three-quarters of an hour the stone burst into a scarlet flame. Out of focus it blazed four minutes and was consumed in two more trials.

Playing Safe.

"Johnny," said the teacher, "this is the third time I have had to punish you this week. Why are you so naughty?"

"Because," answered the incorrigible youngster, "grandpa says the good die young, and I ain't takin' any chances."—Chicago News.

A Bold Jollier.

Mrs. Hashleigh—Yes, we've been having considerable trouble with our milk lately. Do you take your coffee with or without?

New Boarder—I take it within.—Boston Transcript.

Of Course Not.

If a man really loves a woman of course he wouldn't marry her for the world if he were not quite sure he was the best person she could by any possibility marry.—Holmes.

Too Rusty.

Lady (after singing a few rusty notes)—Don't you think my voice should be brought out? Manager—No; pushed back.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle.

Take Hall's Family Pills for constipation.

Notice of Application for Charter

Notice is hereby given that application will be made by J. W. Schnider, S. G. Fulton and Charles Wonsettler to the Governor of Pennsylvania on Monday, Sept. 12, 1910, under the Act of Assembly approved April 29, 1874, P. L. 73, entitled "An Act to provide for the incorporation and regulation of certain corporations," and its supplements, for a charter for a proposed corporation to be called "Marianna and Scenery Hill Telephone Company," the character and object of which is the construction, maintaining and operation of telephone and telegraph lines, buying and leasing the same, for the private use of individuals, firms, corporations; the operation of telephone exchanges and the furnishing of facilities for communication by means of the transmission of electricity over or through wires, and doing a general telephone and telegraph business by such means; and for these purposes to have, possess and enjoy all the rights, benefits and privileges of said Act of Assembly and supplements thereto.

A TERRIFIC PRICE CRASH

on 10,000 pairs of America's Best Made Shoes and Oxfords, will commence at

LOUIS BEIGEL'S LEGITIMATE SHOE STORE, SATURDAY MORNING, AUGUST 27, AT 9 O'CLOCK

and continue for a period of nine days. By this relentless sacrifice you are enabled to purchase two pairs of high-grade shoes for the price of one. We must have room for our new Fall and Winter Footwear. The following price list indicates the stupendity of the bargain-giving. Read them carefully, then come to the store.

500 pairs of men's $3.50, $4, $5 and $6 shoes and oxfords, clearance price $1.90.

445 pairs of ladies' $3, 3.50 and 4.00 shoes and oxfords, clearance price $1.39.

You will find them in our window display and on big bargain tables in the center of the store.

All women's white canvas oxfords, $2.50, 2.00 and 1.50 values, now 69c.

Many misses' and children's oxfords and pumps, reduced to 98c.

Men's $1.50 shoes reduced to 75c.

Men's $1.50 Romeos reduced to 98c.

Men's 75c slippers reduced to 38c.

And hundreds of other equally surprising bargains which we have not mentioned here, are to be seen at the store.

Remember it's the Legitimate Big Shoe Store on McKean Avenue

Louis Beigel FOR GOOD SHOES 419 Mc KEAN AVE.

A THRILLING RIDE.

The Piano Run a Frenchman Gave a Locomotive Engineer.

"I was loitering around the streets last night," said Jim Nelson, one of the old locomotive engineers running into New Orleans. "As I had nothing to do I dropped into a concert and heard a sleek looking Frenchman play a piano in a way that made me feel all over in spots. As soon as he sat down on the stool I knew by the way he handled himself that he understood the machine he was running. He tapped the keys away up one end, just as if they were gauges and he wanted to see if he had water enough. Then he looked up as if he wanted to know how much steam he was carrying, and the next moment he pulled open the throttle and sailed on to the main line as if he was half an hour late. You could hear her thunder over culverts and bridges and getting faster and faster, until the fellow rocked about in his seat like a cradle. Somehow I thought it was old 36 pulling a passenger train and getting out of the way of a special. The fellow worked the keys on the middle division like lightning, and then he flew along the north end of the line until the drivers went around like a buzz saw and I got excited. About the time I was fixing to tell him to cut her off a little he kicked the dampers under the machine wide open, pulled the throttle away back in the tender, and how he did run! I couldn't stand it any longer, and yelled to him that he was pounding in the left side, and if he wasn't careful he'd drop his ash pan. But he didn't hear. No one heard me. Everything was flying and whizzing. Telegraph poles on the side of the track looked like a row of cornstalks, and trees appeared to be a mudbank, and all the time the exhaust of the old machine sounded like the hum of a bumblebee. I tried to yell out, but my tongue wouldn't move. He went around the curves like a bullet, slipped an eccentric, blew out his soft plug—went down grades fifty feet to the mile and not a controlling brake set. She went by the meeting point at a mile and a half a minute, and calling for more steam. My hair stood up straight, because I knew the game was up. Sure enough, dead ahead of us was the headlight of a special. In a daze I heard the crash as they struck, and I saw cars shivered into atoms, people smashed and mangled and bleeding and gasping for water. I heard another crash as the French professor struck the deep keys away down on the lower end of the southern division, and then I came to my senses. There he was at a dead standstill, with the door of the firebox of the machine open, wiping the perspiration off his face and bowing to the people before him. If I live to be a thousand years old I'll never forget the ride that Frenchman gave me on a piano."—Life.

BENEFIT GAMES TO BE PLAYED FOR HOSPITAL

Under direction of the Charleroi Woman's Hospital Auxiliary, two baseball games will be played at the local ball park Wednesday and Thursday afternoon. The contesting teams will be the Episcopal and Catholic teams of the Church League. The Episcopals are the pennant winners of the league and the Catholics were a close second. The games will be virtually a post series between the leaders, and on that account each team will put forth its best efforts. If each team takes a game in the two scheduled, a third game will be played probably Saturday.

The games will be called at 3:30, and an admission will be charged of 25 cents for men and 10 cents for ladies. As they are promoted for a worthy cause everyone is urged to attend.

Liked the Other Kind.

It was in a "down east" village that the young man met his sweetheart—a charming country beauty. When he returned to the city he sent her a jar of cold cream to keep her cheeks as fresh as the budding rose.

On his next visit he asked her how she liked his little gift.

"The taste was very nice," she said with a sickly smile, "but I think I like the other kind of cream best, dear."—Lippincott's.

Return Ticket For Him.

Baseball Fan—Some time ago you told me about a bird of a pitcher you found in a bush league. You took him in hand, didn't you?

Manager-Captain—Sure! But I found that particular bird was worth more in the bush than in the hand.—Illustrated Sunday Magazine.

Down to Facts.

"Did you ever get a diamond ring at the seashore?"

"Don't make me laugh. But I'll tell you what did happen."

"What?"

"A fellow I was engaged to once bought me an ice cream soda."—Louisville Courier-Journal.

Postal Work.

Ascum—Say, what is the difference between a fourth class and a third class postoffice? Do you know?

Wise—Well, in the former the postmaster always finds time to read all the postal cards himself; in the latter sometimes he doesn't.—Catholic Standard and Times.

LOCAL MENTION

Interesting News Items Condensed for Busy Readers.
